PROFILE

As a passionate Front-End developer, I am dedicated to creating visually stunning and highly functional web experiences. With extensive experience in developing and maintaining responsive web interfaces, I am skilled in HTML, CSS, JavaScript, Bootstrap and React. I excel at writing clean, scalable code that is easy to debug.

My approach to web development is driven by a deep appreciation for design and meticulous attention to detail. I thrive on transforming complex problems into intuitive solutions, ensuring every user interaction is seamless and engaging.

I am committed to staying current with industry trends and prioritize continuous learning. In my spare time, I explore new web technologies and frameworks, and I enjoy building personal projects that challenge my abilities and expand my knowledge.
